

Table cells in a different drawing order

RGB labels and values are separate cells. Keep each original source reference.

Ocean		Ocean alternative / conflicting channels	
RGB	18 / 110 / 120	RGB	19 / 110 / 120
HEX	#126E78	HEX	#126E78
CMYK	85 / 25 / 35 / 10	CMYK	85 / 25 / 35 / 10

The second RGB and HEX specifications disagree. Neither replaces the other.

Do not turn CMYK cells or unrelated numbers into RGB values.

Ambiguous rows require source review

None of the following RGB rows should produce an automatic exact color.

An attached fourth channel

RGB 18 / 110 / 120 / 50%

Two possible value cells

RGB 1 / 2 / 3 4 / 5 / 6

Fractional channels without declared units

RGB 0.1 / 0.4 / 0.5

Two overlapping labels

RGB 18 / 110 / 120

RGB

A standalone section heading supplies no numeric value.

Retain nonhorizontal text limitations

Rotated or skewed text makes separate-cell geometry unqualified on this page.

RGB	18 / 110 / 120
HEX	#126E78

Rotated source caption

Keep the explicit HEX literal and source text. Leave the table RGB unresolved.
